I think I remember someone telling one time about a boink rotation mod for the clients. Although the details evade me.. It might make a nice project to re-create the random boink sound mod for clients, unless someone knows if the original mod still exists.

I think I seen one made by blazer0x on ren-archive a while back, not sure.

yep, i used it to rotate multiple sounds a couple of years ago. it crashed renguard though, kept overflowing its memory
