@Hitman:
You can already download my City X Series maps at my renegade modding page (link in my signature)

It contains:
City2
City2_flying
City2_extended (rotable MRSL, Recon Bike, Silos, Helipads...)
City3

I don't know what TT plans exactly but I think they pack at least City2 and City2_flying to their patch.

So as you can see you have a flying and non flying version of City2.
(City3 is infantry only)
