DarkXc wrote on Mon, 16 February 2009 11:42: What are the risks if I do that?

And I had a reply on another forum and he said I could put those 20 entries in only a few entries by opening them through a range. A few ports of KW are: 8089, 8090, 8091, 8092, 8093...etc

So if I do: "8089 - 8099" in one entry, it will forward all those ports?

...

The Darkz

That should work indeed. If i were you i would do it this way. I only didn't knew if your router could do this
