Hey boys and girls,

To go straight to the point:

Im looking for people who could help us by joining our development staff on the WGC forums.  
Mainly for C&C Renegade (SSGM edits)  
but also for other games like COD4, RA3 and CSS.

At the moment the people behind WGC can not manage everything anymore because of the  
expensions we did towards other games.  
This caused some trouble and forced me to do a request here in search for new skilled people.

If you are interested in becoming a staff member on our community and are willing to improve our  
unique gameplay then please pm me on this forum or just visit us at [www.wittebolx.com](http://www.wittebolx.com)

thx for reading.
