Hey!

As many of you are aware, this Thursday, February 26th, is the birthday of C&C Renegade. On this day, you could look forward to a nice little update from your friends over at Renegade X, and you could also expect ReneGame '09. Just like last year, Renegade X will be hosting a game of C&C Renegade to celebrate its 7th birthday. The server is, once again, being supplied by our friends at <http://www.borgamers.com>

The purpose of the ReneGame is to simply enjoy a good ol' game of C&C Renegade, the game that we are remaking. Play with myself, and other developers from the mod, as well as fellow C&C Renegade & Renegade X community members.

Every participant of the ReneGame '09 must use Teamspeak. To download the teamspeak client, simply go to <http://www.teamspeak.com>

The purpose of using Teamspeak is to maximize teamplay and therefore push C&C Renegade's gameplay to its very limit. Teamplay will be key for this game, to achieve the highest potential of organized action. We will be using the Renegade X teamspeak server. The IP is 75.126.220.122:8769. Server information and time of day (will most likely be in the middle of the day EST) will be released on Wednesday, so visit this thread on Wednesday to get this vital information!
