Odd, I don't recall wanting to die to recieve copies of the ugly crap he posted before he was banned... Perhaps you mistook disgust for envy? With very few exceptions, all of his work that I recall seeing has been bright colours and fancy widgets randomly slapped on things with no apparent attempt to create a cohesive and appealing look.

And, before you ask, no I cannot do better, as I suck at anything and everything artistic. For this reason I do not attempt to do so, because I know the results would be as ugly as most of the crap Scrin produces.
