Ethenal wrote on Mon, 02 March 2009 00:28I'd do C++ before ASM...
The route I took in terms of what i know went from

visual basic
visual basic.net
procedural php
mirc scripting
vb.net OOP
even more mirc scripting
c++ procedural (so i guess you can say c)
m68000 ASM to learn memory, registers and the stack
php OOP
c++ OOP

Doing the ASM beforehand made pointers extremely easy
