You decide to relocate to Mars, but then chunks of the recently-destroyed Earth collide with Mars and you get killed.

I wish I had infinite PLECOS.

Then the PLECOS eat all the ren froums members and kill the plecosystem.

I wish EA made toys for EVERY character and vehicles in the entire Command & Conquer!

granted but an alien force has tampered with the toys and they become lifesize and start a global war

i wish error would actually make a wish when he corrupts wishes
