madrackz wrote on Sat, 21 March 2009 10:02: Make a Script that will set the VehicleLimit automacally on Map Load,

Or make a Timer that will load a .INI every minute to change the Vehicle Limit, so you can change it everytime you want

The poor guy cant even setup a standard server, you expect him to know c++ and have the ability to write and compile a plugin? lol

Go the easy route, install a regulator.
