Dear People who Run the Forum,

At great risk to my posting rights and topic longevity, I come today with a dire grievance! Very recently, as you surely know, a terrible disaster happened in our community. Our precious roofgnomes thread, an ancient and holy forum artifact, was mercilessly locked desecrated by Fuhrer "Goztow."

In response, Rocko, a community member homie with an unquenchable thirst for justice created a poll with the intent of gauging popular support for unlocking the thread. Unfortunately, it wasn't long before Goztow set his sights on this poll thread in his latest tyrannical barrage on our forum liberties. See for yourself - the legitimate thread where the community was raising its concerns regarding moderator Goztow's heartless, authoritarian abuse of his moderator privileges has been locked.

Where can we, the community, rightly debate these atrocities?

I therefore boldly appeal on behalf of the community that:

The "unlock the gnome topic - vote" thread be unlocked so we can continue debating about a completely moot point, a beloved and historic tradition of the renforums community.

The roofgnomes thread and all posters therein be guaranteed permanent amnesty and protection from any future reign of terror attempted by unscrupulous moderators.

Goztow's forum name be changed to "Mr. Grumpypants."

Thank you for your consideration regarding our reasonable requests in this most serious of matters.

LET THE PEOPLE'S VOICE BE HEARD!

And if I am banned or otherwise punished for this, I will live on as an eternal martyr for roofgnomes everywhere!
