ive been tempted to make a poll and get input on the community to release these:

<http://www.n00bstories.com/image.fetch.php?id=1144323140>

Except theres a lot of reasons not too

- "Advantage"
- could be made into a radarhack
- keypress class could be used for cheats

It's pretty nice, and I'm sure the source would benefit many developers... but, it's just not worth the trouble.

yeah it's sad
