it says it will be suspended, not will be shut down permanently. but theres nothing to worry about if its really an early april 1st.

We regret to inform you that we are forced to indefinitely suspend the FileFront site operations on March 30, 2009.

There's that word that came before it.

it doesnt matter as long as the site isnt shut down permanently.

www.filefront.com is still up and running except new files cant be uploaded.

screw the economic crisis.
