OMFG... just STFU.

This is not about your family. You are not gonna get off with some sympathy card.

My grandma and grandpa (who were more like my mom and dad) died, a good friend of mine killed himself, should I expect people to feel sorry for me on the internet?

Maybe if they are your online friends... I am not your e-buddy. I don't like you for as much as I know of you. That also does not have to do with this thread's real issue. THE ISSUE OF THIS THREAD WAS CAPS LOCK AND THE RULES. THE ANSWER IS PEOPLE DON'T LIKE SPAM IN CAPS SO YOU WILL BE MUTED. YOU HAVE HAD PLENTY OF WARNINGS Yea, I am an asshole on the internet, that is not what this thread is about.

People die, that is part of life (the real one, not this shit where we respawn). I well know that I will die someday. Learn to separate your online life from your real life.

Your "words of wisdom" have no place here.

I called you retarded, not your relatives.

I know that others were finding you annoying.

Bottom line, if you are being annoying I will mute you, I don't care who you are, not just Puddle.
