John Shaft Jr.Its Saturday. Happy Birthday Beanyhead.

Oh man. I just tested out C&C\_Seaside\_Canyon and i have to say, that map is very cool. I mean I love the destruction of each building. I played as both GDI and Nod just to watch the destruction of each building. It was fun. I also love the way the MRLS works. Should save that map for last Beany.

But please PLEASE take out C&C\_Caverns. I mean come on. It does not have none of the flying building in there but you can purchased Orcas, Apaches and Chinooks. You can easily destroy someones base just by using a Orca to get in top of a building and using a beacon to destroy it. All I say is replace it with another map Like C&C\_HauntedHouse\_DM or C&C\_MedicalLevel.

Thats all I say. All the other maps I do not mind. See you there at MMN.

Next weekend Caverns will be out of the cycle.
