Speedy059 wrote on Fri, 10 April 2009 22:51This is very frustrating and I haven't been able to install Renegade ever since I rebuilt my computer a few days ago. When I try to install Renegade, about midpoint through the installation it stops the installation and gives me a pop up error, "Cabinet File System Error: 4". It shrinks the installation with the popup and closes it.

Any ideas my fellow Renegade guru's?!??!

Bad/dirty disc or bad/dirty drive.
