ok i think this is complete bullshit, so what he used *cheat name removed*while taking some screenshots.

Like 75% of you havnt tried it on multilayer practice, just to see what it can do. 6 months or so ago i got my mate to join a server which i made with a password, so i could see what it does to learn from it. From learning what it does ive caught alot of people using it. I even tried using DH hacks on my own server to test if biatch was working. I dont see the big deal tbh. Do half you which are mods ban for evidence on other servers, no you dont. So go ban me too
