He failed. We all know that, he's trying to bullshit his way out.

Any mod knows about \*cheat name removed\* and other hacks because they have to in order to SPOT THEM.

Anyone else, you can blame.

Hell, when I saw \*cheat name removed\* at the top left corner of your screen, I thought it was an anti cheat.

But when Gozy pointed it out as a cheat, we all caught on and made accusations based on the evidence you've brought against yourself.

And also, if you were making movies, maybe you made sure you turn it off, and SLIPPED UP.

So don't try acting like we're the cheaters. It's you.

Edit:

Gozy, what's hof material?
