Subject: Renegade Install Problems
Posted by matthnatow on Tue, 14 Apr 2009 21:15:09 GMT

I recently formatted my computer and want to reinstall renegade on it. When I start the installation, everything goes fine until 13% installled. Then an error pops up and says "file system error: please insert renegade game disc." I can click retry but it just keeps happening. I dont get it, it installed fine the last time and the disc is not scratched!?!? Whats the deal here?

Matt
