I own a few "specialty" nicks that go with my server only and then I have some a00* nicks..

a0001b

a0001c

a0001d

a0001e

a0001f

a0001g

I dunno if they could use them as they're not that high on the server listings...I use them for test servers and mod-servers (APB and Reborn).

Unfortunately, They're lower on the listings than Black-Cell's current nick (a0000001I? or something?)

EDIT: It doesn't matter about a00* nicks anymore though. Scripts 3.4.4 sorts (by default) by player count.
