any one into this kinda stuff at all?

the streaming service.
http://www.mogulus.com

the desktop tool (that improves the service)
http://www.procaster.com

watch the video on the procaster site.
it can tell you what im talkin bout faster then me typing it.

but typical, it doesn't work with renegade?

any one willing to demo/test this with me?

I mean check out this channel I was in today:
http://www.mogulus.com/vidyavidya

We need to do this for renegade.

any one down?
