Saberhawk wrote on Wed, 29 April 2009 13:39EDIT:

I added Renegade to Steam via "Add non-Steam game..." button, pointed it to a Renegade install with scripts 4, and I can confirm that launching Renegade via Steam does not crash on this Vista Ultimate x64 install.

Excellent. Could anyone else from TT confirm this for XP though?

(I'd want to test it if needed, but I don't think you're up for that)
