Queen I like the silver but the blades were done by "UnitXc" need to always give credit. I'd like
the Apache better if the blades matched the chopper.

Also please provide download links.

I have been trying to change V_Blurblade but Im having difficulty.

Just impose circle shapes over the center of the dds. I know there maybe a better way but that
always works for me.

If it's something like this:

Then the blade tips will turn out to be maroon while the rest of the blade will be black. hope this
helps...
