Hello people, i am struggling at the moment because i need commands such as !c4 and !ping on internet lan. Is that possible? if so please help me out. I play internet lan with ym brother some times and when i go online, theres so much commands to use from a variety of servers. I wonder if i can get them too but on internet lan. It's not just !c4 and !ping im interested in but others such as !help etc. Please hlep me out thnxs!
