Subject: Re: Fix outside PTs?
Posted by Gohax on Fri, 08 May 2009 03:10:51 GMT

Wall hop was a glitch that was found it, but I don't think they are fixing it. :/ Glitches that harm any type of the game should be fixed, like ob-walking and others, but glitches that sort of help gameplay but don't really provide much "discomfort" in the game I think should be left alone.

Let's put it this way: if you took out accessing pt's from outside buildings, it would do more harm to the players rather then good.
