Thu, 30 April 2009 09:09Some people are already immune to it, but cool we can finally stop the  
thing that we started.  
i thought it was the monkeys.

It was, but people started injecting the monkey's blood into people and that's how it spread to us.  
I thought it was cause people started having sex with animals?

(That's not sarcasm, I'm being serious)
