Gen_Blacky wrote on Tue, 12 May 2009 00:16l really don't see how weed helps cancer patients or help with any pain related issues. I smoke weed almost everyday and it never has stopped a headache or relive any other type of pain.

I only smoke on the weekends... but that's during the school year. I can't say I've every had a headache before smoking, and have never really done anything to hurt myself, I like to chill.
