reborn wrote on Wed, 27 May 2009 05:26: Is anyone planning on installing the Beta of Visual Studio 2010 along with .NET 4? You can get it here: Visual Studio 2010 and .NET Framework 4 Beta 1

Already installed; UI is currently too slow and unresponsive for my tastes. I tweaked the hell out of the Windows "performance" settings and VS2008's UI to get a very quick responsive UI and 2010's 1.5 second lag on IntelliSense/menus just isn't cutting it.
