omega79can you proof that they stolen a map ?  
cuz if you cant ... dont tell a speculation !

I'll speculate as much as I want, thanks.

Quote:i cant beleve that they stolen a map, i think they asked!

Thinking is speculation. Didn't you just say not to do that?

Quote:what else did they stole ?

nothing ... just a crystal ... i think if you want they remove it ...

Two of my textures, and textures from a level designer who they never even asked permission because he's not in this community anymore. I have repeatedly asked for credit for what I've created and they say that they made it themselves. I've seen the mod, I've played it, and I know they're using my stuff. The least they can do is ASK AND CREDIT THE PERSON WHO MADE SOMETHING.

Quote:i think you only want to make ppl think bad about reborn cuz of "your" mod.

They really don't need any help from me to make people think badly of it.

Quote:renalert loks not as half as good as reborn ... at this time ... maybe it changes ...

This is your opinion, and you've already contradicted yourself with your opinions...

Quote:btw ...

i write like i want ...

That's nice. The least you can do is write like a decently respectable person and make what you write understandable.
