I used to love fanmaps too and I fondly remember good times on maps like Terrace (as GDI) more than a year ago on Jelly Mappack before it was shutdown.

As far as the standard maps go, I really enjoy them. Maps like Complex, Canyon, and City_Fly and Walls_Fly get me going...

It's just that the new maps are not well balanced. There are very few fanmaps that are worth playing imo...when Jelly MapPack goes back up then no doubt we will see players there as they were a year ago.
