maj.boredomAircraftkillerRemember, it's please, not plz.

Remember, it's I, not i.

Remember, it's Renegade, not renegade.

Remember, it's e-mail, not email.

Remember, it's "it's," not "its" in this particular situation.

Hope you can type that HTML coding without as many mistakes as you've made here. :rolleyes:

Try some of these free trials [Here](#).

Bored, eh?
