so say we all. wrote on Wed, 08 July 2009 18:32score/minute

Somewat better, but art and mrl whoring ftw? Actually, if u want to award time played, then that's easy: check the amount of time someone was in a game where he earned minimum xx percent of the team's points. Exempla: 10 players on a team that scored 1.000 points at game end --> player had to score minimum 50 points ($1.000 / (10 * 2)$) and you check how mch time he played that game.
