1. People who are intolerable of other people's cultures
2. The Dutch

so basically you hate yourself.

- 1) People who get pissed cause no one is repairing them all game while they point whore and their the same people will will never mine or repair a building or anyone else ever.
 - 2) Players who stand by a building going down calling for repairs but refuse to trade in their character to repair it even though the bar/hand is still up
 - 3) People who want to quit cause 1 building is gone.
-
