andr3w282 wrote on Sun, 19 July 2009 18:42Hm it's possible. But yeah i'll rip all your stuff and recompile then play around with it. Also i'm running an i7 and a radeon 4870 so i think i'll be ok for fps

Aye that's the same reason I didn't care about the FPS drop I run vsync so I get 60 fps running it or not, but I gave it to someone and it dropped his quite a bit.
