I was about to check out this "faildus" which I haven't heard of before, but then you mentioned you like UNRules, so I can't take your opinion seriously anymore.

I actually enjoyed playing in UNRules, but it was only because I used to play there with a close friend. The mods sucked ass - I got !forcerg-ed because I killed an engineer with a minigunner. It was straight forward: I ran up to him, fired at him until he died, got forced, came back a minute later with RenGuard.

These days I generally play as "Ethenal" at Exo.dus, Jelly, and St0rm.

Also: John McCain's post made me lol so fucking hard.
