I was about to check out this "faildus" which I haven't heard of before, but then you mentioned you like UNRules, so I can't take your opinion seriously anymore.

I actually enjoyed playing in UNRules, but it was only because I used to play there with a close friend. The mods sucked ass - I got !forcerg-ed because I killed an engineer with a minigunner. It was straight forward: I ran up to him, fired at him until he died, got forced, came back a minute later with RenGuard.

These days I generally play as "Ethenal" at Exo.dus, Jelly, and St0rm.

Also: John McCain's post made me lol so fucking hard.

Consider yourself lucky that you weren't running Renguard at the time. If the !forcerg you and you're already running it, they just ban.
