Goztow wrote on Sat, 25 July 2009 04:47 Yes, they do, they do not agree automatically for that information to be stored in a central place and for it to be shared between server owners.

Does agreement even come into the picture? Your information is being logged and probably shared, whether or not you agree to it. That's just the way the system works. Nobody was ever told otherwise.

The same can be said about the PM's. It's not stated anywhere that they're private to everyone including the server owners.
