R315r4z0r wrote on Mon, 03 August 2009 17:13 We've seen the new water, but I was wondering if it would be a problem if other enhancements were made? Nothing as drastic as water, though.

For example:

A new higher resolution skybox or cloud texture

Better rain and snow effects, ect.

That's probably more texture work than coding work anyway.

Better skybox is good, but better snow and stuff would make it more lagg for people with low speed computers.
