umm the data folder thing that is not true i only have skins and a mod in there but the first time i put them in there there was no problem the empty server just started recently today so yeah
o yeah TY for the vehicle thing ima test it now

edit: WOOHOOO!!!!!!!!!!!!!!!!!!! it works!!! but one problem is the cursor -.- eh IDC i got used to it already but TY and now it is only hte server thing thank god

WOOHOOOOOOOOO!!!!! I FIXED IT!!!!! u were right after all it was cause of my golden gun mod for the campaign TY for telling me
