I am quite happy to support the use of compulsory pure renguard on this tourny with scripts 3.4.4

Thats the only way to be sure everything is 100% fair.

RenGuard has outlived it's usefulness. BIATCH is superior and RR is next in line (1st for client-side).

If you are going to push for RenGuard compulsory, then I'm going to say force RR. It runs on 2.9.2 (afaik) and servers can run it. Provides kudos anti-cheat. Vastly superior to RenGuard.
