Prulez wrote on Mon, 17 August 2009 11:11Cunin wrote on Mon, 17 August 2009 19:40Also, if you meant the mlRC bot, then that bot was made also by some of the people who left, and it's also still hosted on Prulez' server if I'm not wrong, so those were someone else's ideas.. To reply to this: I am developing ExaBot, NSiBot was running on my server, but I have not copied any of the scripts. If you want Andrew to take a look at my scripts to verify this, I'll be happy to give him my code.

I'm referring to copying unique features that we thought up. But don't worry, you're not the first to copy NS and you won't be the last. Copying other people's ideas is a running theme in this community.
