Just to make it clear.

You all are talking like being registered on our forums means that their speaking on our behalf. Even if we could agree with whatever our registered users will post around, that's surely not an official representative of Exodus.

Yet, you do agree with him, don't you? You certainly aren't retracting his words or distancing yourself from his opinion. Exodus's position is being made pretty clear.

I don't understand; I've never thought anything bad of you but you're in here shooting shit across the room in a situation you barely know the circumstances of. What gives?

Perhaps it's because it's hard to convey tone and mood over the internet, but my intention isn't to "shit across the room". I'm just pretty tired of this latest barrage of ReneDrama. You're right that I don't know all of the circumstances, but in nine situations out of ten, the thread-starter (In the case of the other thread) or the thread-derailer (In this case) is to blame for the resulting drama. In this case, it's this rrutk guy, and the Exodus community is apparently backing him up.

Like you said, I don't know the circumstances. For all I know, they could be right and could have a legitimate grievance, but I do know they definitely aren't handling themselves well.

Ok, and by what stretch of the imagination leads you to think Crimson is handling herself well, what with deleting topics and pretending things never existed?
