Wow there is a lot of chaos going on in this thread. Ok let me explain a few things since a lot of people don't seem to understand.

1. I posted on every forum to remind them the seedings are open and they can vote. The reason for this is because barely anybody got their rosters in on time and I wanted to make sure we got as many vote as possible in.

2. Anyway we determine match-ups is going to be biased, not fair, or inaccurate. The only way it is not going to be is if I put communities into a hat and then the last community in the hat gets the bye.

3. The #1 seed gets a bye because there is an ODD amount of teams in the tournament.

4. The worse seeded team in every match gets to be server host. I did that so it can kind of level the playing field.
