wow you people have nothing better to do with your time then talk about Queen.

So you got a picture, that might be his might not. He might have used it online or not. You really don't know. Have you ever played with him in game ever and been suspicious of him cheating? Have any proof other than these forums love to flame people. Ohh goodie a new thread to go and flame someone.

I for one have played Renegade with Queen and I can tell you if he is using *cheat name removed*or any other kind of cheat, hes sucks as a cheater.
