nikki6ixx wrote on Mon, 31 August 2009 06:51 I really don't think people are actually going to through the effort to get family members to play for them and go through all that coordination for one hundred fucking dollars.

You'd be surprised. For a lot of teenagers one hundred dollar equals a few months of pocket-money. And what coordination? If they only have one pc, there's not much to coordinate .

It would probably work out better anyway if you split it over the top 3 and one random ladder player in the top 20. That way, it wouldn't be a select few who have the slightest chance of winning anyway.
