Noo Gator came from divx here is something I found on their site.

"Why We Offer Ad-Supported Software

After we decided to offer the professional-level DivX Pro to personal users for a fee, there was still a portion of our team that wanted to do better. And you can't do better than free. So we are offering a no cost, ad-supported version of DivX Pro. We made this happen through an association with the Gator Advertising and Information Network (GAIN)."
