I'm not sure how many other servers were effected by this, I know at least 4 or more.

Anyways, long story short, a bunch of servers were spammed with "Visit us at irc.kamuix.com" or similar shit earlier today using the nick A000000x9 on XWIS.

This spam was meant to attack me for whatever reason I'm unsure of so I wanted to apologize for any inconvenience caused. Thanks goes out to Crimson and andr3w282 for putting a stop to it.

The person responsible for the spam is known as Kjcoolo4, with the IP 95.118.24.34 and hash 28ae05db093a6874615dfe2fd91960dc
