anyone else got any more?

About 60 GB more...

Damn man, Could someone point out how to tell the different type of techno music but category? A friend of mine who happens to be a DJ says that there many different category of techno.

You're a bit slow, huh?

Why you say that? im just barley getting into techno and wish to know how to tell the diff category apart is all...

Nobody understands techno - except ravers, which is a group of superweirdos nobody should associate with. Do you really want to know how you can put 60 GB of music into 324234 sub-categories? Just enjoy the tracks that are currently poppin in the clubs (mostly electro & house anyway) and stop trying to understand the 34234324 sub-categories idiotic ravers have made up.

i wish we could switch our clubs for yours, the garbage they play here (t-pain, lil wayne, whatthefuckever) is a disgrace

edit - ok i am completely mystified at how 99 percent of the shit on that techno.org site is terrible, so never mind what i said earlier, i dont know what's worse... probably still t-pain though.

depends on which day of the week it is...most of the time it's a mix of house, electro and t-wayne...black music is less common is the more upscale clubs, but you can choose to go to the :-( ) club where that's all they play...only black/hispanic/wigger military and fat white broads hoping to get knocked up go there, tho.. ;\
