Kim wrote on Sat, 12 September 2009 12:00Nice when do you think it will be done?

Well I cant give you an exact date since atm I will be finishing that chemsprayer first. Atm I'm not on the correct comp to be working on the pistol.

Thing is I suspect it should be easy going since the uvw unwrap is available which means the shape is available. Just some measuring to do.

I will try do do it as fast as possible.
