I haven't on the forums for a while - it's nice to see TT still alive and kicking.

On a rare occasion I've come across players with a nick using a forward-slash as the first or second character in their name. Due to this you can't ban, kick or even mention their name in chat.

Would it be possible to disable the use of this character or turn away players with a nick containing a forward-slash in it at the server level?
