I'm buying for sure. Around here its \$15.99. I'm a die hard Renegade player. So I'm sure I'll love this mod, hopefully! From what I've seen on the latest video it look good. 8 days to its released! Where is the download for the mod going to be? And is it going to be easy to install? The Server going to be easy to find? Whats the server going to be named? Is all this info and more info going to be provided and where?
